Purchasing a dog license:

1. Verify the rabies vaccination date on this application. If the vaccination expires in the current year, a new vaccination is needed and then a license can be purchased.
2. Licenses can be purchased the month before, the month of, and the month after the rabies vaccination date. The rabies vacc. must be valid the duration of the dog license.
3. Mail BOTH copies, along with remittance. NOTE: If rabies information is not correctly printed on application or your pet has been spayed/neutered within the last year, please provide certificate showing proof. The certificate(s) will be returned with your tag.
4. Three year licenses can ONLY be purchased by those who are at the START of a three year vaccination. For those in the middle of a three year vaccination, a one year license must be purchased until a new three year vaccination is given.
5. Those with a September, October or November expiration date will only be able to purchase their license thru Animal Control or Treasurers Office, either in person or by mail.

PENALTY--Licenses must be purchased the MONTH BEFORE, the MONTH OF, and the MONTH AFTER the rabies vaccination month for a regular priced license. After that period the license is delinquent and must be purchased at Animal Control. Failure to receive renewal notice does not waive penalty.
